

Earth Technologies, Inc.

PROJECT: Interstate 10 Service Roads

Location: Baytown, Texas

Directions: I-10 Service Roads just west of Baytown, Texas

Installation Date: Summer/Fall 2001

Owner: Texas Department of Transportation (East Houston Area Office)

Engineer: TxDOT – East Houston Area Office
Quincy Allen – Area Engineer
Jim Jackson – Project Engineer

Contractor: Williams Brothers
Randy Rodgers – Chief Estimator
Wayne Stewart – Superintendent
Houston, Texas

Product: Tensar BX1100 Geogrid

Quantity: 110,000 SY

Usage: Subgrade Improvement

Project Information:

TxDOT Area Office opted for one (1) layer of Tensar BX1100 biaxial geogrid in lieu of a lime stabilized subgrade due to timesavings associated with the geogrid installation.
